# • Grantham Hall •

The Grantham Hall collection is classic and comfortable with subtle 18th century style influences highlighting a sophisticated, modern design. Simple lines allow the more detailed features to take stage without being overstated. The end result is both elegant to look at and yet comfortable to live with.

Rogue Cherry veneers with figured grain highlights are the feature element of Grantham Hall. The finish is a deep coffee tone that sets off the metal work in the hardware.

An open arabesque design motif is found in the champagne finish hardware, wooden fretwork, and overlays. Other design touches include subtle inlays on select tops, reeded accent molding, hand-hammered nail-head trim, and ferrules on the feet of certain items.

## 512 GRANTHAM HALL

DEEP COFFEE TONE ON ROGUE CHERRY VENEERS WITH HIGHLIGHTS

Finish is deep coffee tone with figured highlights on rogue, cherry veneers and hardwood solids with distressing and water marks under the finish.

*Finishes ordered at different times are not guaranteed to match. Woods have grain and color variations due to growth patterns of each tree. The result is a beautiful and unique piece. Due to these variations, finishes on individual pieces are not guaranteed to match. The finish shown here has been reproduced as accurately as photographic and printing technologies allow. For the truest representation, please contact your American Drew dealer.*

### Care & Cleaning

**Care of fine finishes:** American Drew finishes are naturally resistant to minor everyday hazards and accidents; however, some precautions are necessary to maintain the beauty of your wood furniture.

- Dust with a soft clean cloth slightly moistened with water, and then dry completely with another clean cloth. Always rub in the direction of the wood grain.
- Avoid cigarettes, hot dishes, moisture and harsh solvents such as nail polish and alcohol.
- Do not place beverages directly on furniture.
- Use pads beneath accessories when writing or eating.
- Remove spills and smudges immediately.
- Pliable materials should not be left on a wood surface; they can damage the finish.
- Furniture should not be placed near heat, outlets, windows, or in direct sunlight.
