The Kincaid Difference

REAL SOLID WOOD CONSTRUCTION

Genuine solid wood is used on all exterior panels and shaped edges to provide quality and heirloom beauty that will last for generations.

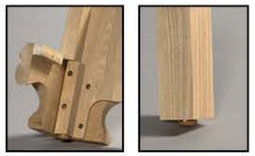
Many furniture manufacturers only use solid wood on drawer fronts, while the remainder of the product is veneer over particleboard. Edges are typically "banded" with a strip of solid wood to simulate solid wood construction, but below the veneer is particleboard.

MORTISE AND TENON JOINTS

Kincaid's case construction features mortise and tenon joinery, a time-proven method of assembling two parts at a 90° angle.

DRAWER GLIDES

We offer a whisper-quiet drawer glide mechanism that allows a gradual, soft close to all drawers.



ADJUSTABLE LEVELERS

Adjustable levelers are provided on units for leveling doors and select units have a center support.

DOVETAILING

Kincaid's dovetail drawer construction (front & back) uses the very best dovetail for each application.

72 Stone Ridge • Species: French Oak and US White Oak
Finishes: Wine Barrel (brown), Worn Black (black)

Custom Handmade Hardware • Evokes Recycled Wine Barrels Look with Split Turned Post and Dental Crown Molding Detail

Finishes ordered at different times are not guaranteed to match. Woods have grain and color variations due to growth patterns of each tree. The result is a beautiful and unique piece. Due to these variations, finishes on individual pieces are not guaranteed to match. The finish shown in this catalog has been reproduced as accurately as photographic and printing technologies allow. For the truest representation, please contact your Kincaid retailer.

CARE & CLEANING

Care of fine finishes: Kincaid finishes are naturally resistant to minor everyday hazards and accidents; however, some precautions are necessary to maintain the beauty of your wood furniture.

- Dust with a soft clean cloth slightly moistened with water, and then dry completely with another clean cloth. Always rub in the direction of the wood grain.
- Avoid cigarettes, hot dishes, moisture and harsh solvents such as nail polish and alcohol.
- Do not place beverages directly on furniture.
- Use pads beneath accessories when writing or eating.
- Remove spills and smudges immediately.
- Pliable materials (rubber, vinyl, plastic) should not be left on a wood surface; they can damage the finish.
- Furniture should not be placed near heat, outlets, windows, or in sunlight.
- Simple cleaning can be done with a soft cloth and vinegar/water mixture, (1 tablespoon vinegar with 1 quart water)

Kincaid, in keeping with its tradition in styling, materials and finish, crafts its furniture collections using primarily solid woods selected for grain clarity, color coordination and design. Combinations of different solid wood species are used within each collection. Not all exposed surfaces of every collection are constructed of solid wood. Wood products, multi-layered plywood, veneers and laminates are used for certain structural elements, including exposed surfaces that support leather, cane wicker and other non-wood materials, as well as in select components including some decorative table tops, table skirts, bed rails, interior surfaces, back panels, pullout trays, serving surfaces, etc. Some of our furniture features metal, stone, marble, granite or a composite material with the appearance of these elements.
