Project Identity

Natuzzi Editions

The Project Identity purpose is to offer a unique working method that guarantees chromatic and stylistic conformity and preserves the Brand's DNA.

This tool represents a guide that goes beyond the offer of a product, aiming at the creation of a real project from the stores to the customers' homes.

Zenith

Just as the highest point of the sky, the Zenith sofa represents the pinnacle of relaxation, offering a truly exceptional seating experience. Immersed in a design that caresses the look and wraps the body, it invites you to stop and find your center. Its Dual Power motion separately activates the seat recliner and the headrest, allowing you to reach extreme comfort in a “Zero Gravity” position that makes you feel weightless. Proven health benefits include taking the pressure off your spine and promoting circulation in the legs. Functions are operated by the power switch - which also allocates a USB-C charging port - in a pocket on outside panel of the arm. Available in leather or fabric, in more than 100 colours.

Embrace a new philosophy of Comfort.
Feelwell combines physical relaxation
and mental balance, offering a tailor-made
wellness experience.

Design by Natuzzi Design Center

In the Natuzzi Headquarter in Puglia, the Design Center preserves the balance between design and functionality, values rooted in the brand's DNA.

Choose your Zenith

The Zenith project is extremely versatile thanks to its 10 SKUs that allow us to create unlimited configurations suitable for any space, from the stores to our customers' homes.

Features & Benefits

By distributing weight evenly across all pressure points, the zero-gravity power motion system makes you feel weightless. It takes the pressure off your spine and can promote circulation in the legs. The definition of Zero Gravity Reclining is the ability for your legs and feet to be resting at the same level of your heart which provides proven health benefits.

Reduces pressure on the spinal column

The design of a zero-gravity seating ensures the body stays in the correct natural curvature of the spine.

Improves blood flow and circulation

Reduces emotional stress

Zero-gravity seating lets you take a relaxing posture, allowing you some quiet time alone. This can be a useful meditation tool.

Promotes proper posture

It may be hard to maintain the right posture when reading a book for example or watching TV. Fortunately, it is possible to do this with a zero-gravity system because it is designed to take the natural curvature of your spine while still offering full back support.

Reduces muscle tension

Improves lung function over time

The lung muscles become fully expandable when you use a zero-gravity relaxing mechanism. This means that blood can oxygenate the body with less energy.

Layout examples

It's possible to highlight the versatility of the project even with different layouts, suggesting the creation of various roomsets to show the optimization of spaces in any living area.

Moodboard earth tone

The Natuzzi Style Center carefully selects materials and coverings, putting them in dialogue with each other. In this case, the Dream leather in the Truffle color was paired with the Terme velvet in the Rust color. The combination of these coverings together with the wood & ceramic, will give rise to the moodboard that will create the final total look of the project. Each model in the collection is presented with multiple moodboards to adapt to homes all over the world.
